**Technology Upgration Fund Scheme (TUFS)
(01-04-2007 to 31-03-2012)**

**Circular No. 8
(2008-2009 Series)**

Sub: Technology Upgradation Fund Scheme (TUFS)

1. Decisions taken by reconstituted Inter-Ministerial Steering Committee (IMSC) in its 1st meeting held at New Delhi on 19th January, 2009.

(i) Decision of reconstituted IMSC on issues mentioned in GR on modified TUFS

A) Para 6 xi) of GR on modified TUFS states that machineries for CAD, CAM and design studios and likes will be included in the separate heading of the guidelines of the scheme with a financial cap to be determined by the IMSC.

IMSC noted that machineries for CAD, CAM and designs studio and likes have already been included in the separate **Annex – M** of the GR on modified TUFS and decided that in view of the present scenario in the textile industry financial cap may not be imposed as of now, however, decision may be reviewed later on.

B) Para 4.2 a) (i) of GR on modified TUFS states that in the cotton ring spinning system, new units, capacity expansion and modernisation of the units with eligible MES will be permitted. The MES will be decided by the IMSC.

IMSC decided that existing spinning units may be covered under TUFS for modernisation / expansion subject to the TUFS norms of scrapping of old and obsolete spindles (as per TUFS norms, ring frames older than 15 years and backup machinery / equipment older than 20 years should invariably be scrapped). Existing weaving / knitting / processing / garmenting / made-up units can set up spinning capacity under TUFS without any MES norms.

However, with regard to MES of stand-alone new spinning units, the issue should be discussed again in the TAMC.

C) Para 3.4 of GR on modified TUFs states that investment in common infrastructure facilities owned by the association, trust or co-operative society of the units participating in the TUF Scheme, to the extent necessary for this purpose, including the following only upto 25% of the cost of TUFs eligible machinery of the participating in the TUFs modernization with a maximum of financial cap to be determined by the IMSC:

(1) Common utilities, viz., water supply, power substation etc.

(2) Common captive power generation(including non-conventional sources).

(3) Common effluent treatment plant.

IMSC noted that ceiling of 25% of the cost of TUFs eligible machinery of the participating units has already been prescribed in the modified TUFs and decided that in view of the present scenario in the textile industry, financial cap may not be imposed as of now, however, decision may be reviewed later on.
